

**BRITISH PHOTOGRAPHER CHRISTOPHER BUNN'S
"BLACK AND WHITE 'CHELSEA LOOK' PHOTOGRAPHIC WORKSHOP
AT PHOTO EXPERIENCE
MARCH 3RD, 10AM TO 2PM**

Christopher will be demonstrating the use of various types and styles of lighting used for successful commercial fashion photography. The demonstration in this working tutorial will be primarily in the use of a single light source, the main light for all subjects. Being familiar with these effects of lighting and use of equipment can be applied to fashion, portraiture and even still life photography. Lighting whether it be soft, hard, direct or indirect creates the atmosphere and look of the final image. You will have the opportunity to be working and photographing with studio strobes, light modifiers and live models to produce your own photographs.

British photographer Christopher Bunn grew up and was educated in London England.

Working as a freelance commercial photographer, whether in the comforts of his studio environment or the blazing summer heat of Death Valley, has rewarded Christopher with a diverse variety of subjects and his portraiture the opportunity of photographing celebrities both past and present. His work has appeared in both national and international magazines, book covers and music CDs. Coming from London, the scene of famous models and musicians, Christopher has much to share with other photographers and students. See Christopher's website to view his unique style, www.christopherbunnphotographer.com.

Christopher now lives in Venice, Florida. Admired photographers: George Hurrell, Horst, Irving Penn , Albert Watson , Paolo Roversi. LIMITED SPACE. COST: \$150
